June 9, 2014

To: Dr. Tim Martinson, Cornell University

From: Craig H. Wood, Associate Director, eXtension Initiative

A handwritten signature in black ink that reads "Craig H. Wood". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

Subject: USDA – NIFA - SCRI - Northern grapes: Integrating viticulture, winemaking, and marketing of new cold-hardy cultivars supporting new and growing rural wineries, a progress report and continuation with the Grape Community of Practice (CoP)

This letter of acknowledgement is in reference to the progress report and grant program submitted by Dr. Martinson on the, “Northern grapes: Integrating viticulture, winemaking, and marketing of new cold-hardy cultivars supporting new and growing rural wineries.” eXtension through the assistance of the Grape Community will continue to support the work of this project. The eXtension Grape CoP will serve as a home for the Northern Grapes newsletters, webinars, schedules of workshops, webinars and symposia; content will be posted/managed by C. Particka, project coordinator. Materials will include 8-10 modules on individual topics specific to cold climate wine production for on-line dissemination (i.e., analytical methods, vinification techniques). Modules will include video clips and other interactive features also housed on or accessible from enology extension webpages maintained by the University of Minnesota, Iowa State, and Cornell.

eXtension is prepared to continually support this effort to make it successful and will work with Dr. Martinson and the Grape Community to assist in delivering the products and outcomes described in the proposal. If you have questions concerning this letter, please feel free to contact me at craig.wood@extension.org.

Thank you.
